Professional addition to a classic Fort home doubled the size & created a truly unique, bright family home w/3 car garage on 1/3 acre private lot w/west facing back. The unassuming front entry blends nicely into the neighbourhood. Upon entering you are treated to a stunning, bright, open great room featuring beams & stairs milled with trees from lot. Imagine the opportunities to organize rooms for your lifestyle, whether an active family and/or work at home space, or for elderly parents. The kitchen is centrally placed for everyday meals plus access to multiple levels of deck & yard for entertaining, & still lots of play & gardening space. This type of property doesn't come up often in the Fort. This home must be viewed to appreciate! Call for info re upgrades/addition.
